

**Evelyn Vander Zaag**

*M.S.W., R.S.W., Acc.F.M.(OAFM), CP Med*

Evelyn Vander Zaag provides comprehensive family mediation and child protection mediation services.

Evelyn Vander Zaag is a registered Mental Health Practitioner, an accredited Family Mediator and is on the OAFM roster for Child Protection Mediation. She has been involved in the field of social work for over 30 years, and has served as a family mediator for 13 years.

In addition to her early experience in child welfare, both in a front line position and in an adoption department, and then her experience in providing mediation services, Evelyn has continued to expand her counselling skills through the completion of a certificate in Addiction Studies. She has used these skills to counsel individuals and families affected by problematic substance use.

Evelyn's goal in mediation is to provide separating parents and those involved with a child protection agency, a safe opportunity to make healthy decisions for themselves and their children.
