

Lori Durell

Human Services Diploma, Family Group Conference Coordinator

Lori is currently employed at Community Services Coordination Network as Service Coordinator. She has a diploma in Human Services and has worked in Children's Mental Health for over 20 years in a variety of roles. Lori has been a Family Group Conference Coordinator since 2010. Family Group Conferencing is based on the belief that families, when given the opportunity, will develop plans that provide safety for their children. What Lori enjoys most about FGC is how family is empowered through the process to develop and author a plan for their child(ren) that address the concerns of the Children's Aid Society. Family Group Conference allows family to have a voice.
